GENERAL BULLETIN NO. 5226

DATE: April 20, 2007
TO: All Authorized ANSUL® SAPPHIRE® System Distributors
FROM: Marketing, Engineered Systems
SUBJECT: SAPPHIRE Environmental Warranty

Ansul Incorporated is very pleased to announce our Environmental Warranty for SAPPHIRE Clean Agent Fire Suppression Systems. In keeping with the practices set forth in the INERGEN® Evergreen and Environmental Warranties, this Environmental Warranty covers an integrated SAPPHIRE System installed and commissioned by an Authorized ANSUL Distributor for ten years after installation. The warranty expressly covers the environmental issues of Ozone Depletion, Global Warming, and or Atmospheric Lifetime. Should environmental legislation be enacted that requires removal of SAPPHIRE Agent for one of these reasons, our Environmental Warranty has you covered. Now your customers can purchase an environmentally-safe product without concern that it will be regulated out of use.

ANSUL continues to provide environmentally responsible fire suppression solutions for our customers. We are confident that this Environmental Warranty will have an immediate beneficial impact on customers considering a SAPPHIRE Suppression System for new or retrofit applications, or as a sustainable replacement chemical clean agent for first generation HFC and/or HCFC products.

The SAPPHIRE Environmental Warranty (Form No. F-2006147) requires completion and return of the SAPPHIRE System Verification (F-20070473). Both documents are attached and are also available on the ANSUL Extranet under View/Warranties.

Should you have questions regarding this warranty, please contact your U.S. Engineered Systems Manager, International Area Manger or ANSUL Technical Services at 1-800-862-6785 or 1-715-735-7415.
